Precaution

Please observe the following precautions.

- Power off all devices before installation.
- Remove the rubber feet from the bottom of the chassis, if any.
- Dissipate static electricity before installation. Failure to observe this precaution may result in ESD (electrostatic discharge) damage.
- The appropriate screw tightening torque: 1.47 N·m (About 15.0 kgf·cm)

RM-OFS220

The RM-OFS220 is designed to permit mounting the MSD-701 with a 0.8 in. (20 mm) backset from the rack mounting surface. This provides clearance for the front panel.

The RM-OFS220 is different from the rack mounting brackets that are supplied with the MSD-701AMP.
